Fashion Trends of the 19th Century

Victorian fashion played a crucial role in the _____ of British fashion, marking a period of opulence, strict social etiquette, and distinct styles for _____, women, and children. During the Victorian era, women's fashion was characterized by _____, which cinched the waist to exaggerate the hips and _____, creating a highly sought-after hourglass figure. The dresses often featured _____, large, structured petticoats that made skirts voluminous. For men, the era saw the rise of the _____, a garment that became a staple in a gentleman's wardrobe, symbolizing sophistication and _____. Children's clothing, on the other hand, started to be designed with more comfort in mind, though still mimicking adult _____.

Accessories were also pivotal, with hats and _____ being essential for both men and women, signifying one's social _____ and adherence to fashion norms. The introduction of the sewing _____ in the mid-19th century revolutionized garment production, making fashion more accessible to the _____ and not just the aristocracy. This period also saw the emergence of department stores, changing the way _____ shopped for clothes and further democratizing fashion.

The influence of Queen _____ herself on fashion cannot be understated. Her choice of attire often set trends that the public was eager to follow, such as the white wedding _____, which remains popular to this day. The mourning clothes she wore after the death of her husband, Prince Albert, also affected _____, with black becoming a chic and widely worn color.

This era's fashion legacy is its contribution to the establishment of modern fashion _____ and the idea that clothes signify personal identity and social status.

Victorian fashion not only reflects the social and technological _____ of the time but also laid the groundwork for future fashion innovations.
