John White's Leadership in Roanoke

John White was an explorer and an artist. He played a key role in the Roanoke _____ . White was appointed the governor of the colony. His main task was to establish a _____ on Roanoke Island. The colony was meant to be the first permanent English settlement in the New _____ .

In 1587, John White and over 100 settlers arrived at Roanoke Island. They faced many _____ , including conflicts with the local Native tribes. Despite these difficulties, White tried to maintain _____ and ensure the colony's survival. He made detailed maps and drawings of the _____ .

The colony's supplies began to run low. White decided to return to _____ for more supplies. Unfortunately, when he returned in 1590, the colony was deserted. The only _____ was the word "CROATOAN" carved into a post. This led to many theories about what happened to the _____ . Some believe they integrated with the Native tribes, while others think they moved to a different _____ .

John White was deeply affected by the disappearance of the settlers, including his own _____ . His role in the Roanoke Colony remains a significant part of early American history. Despite the _____ , his contributions to exploration and cartography are well-remembered.
