Letters and Sensibility

During the Age of Sensibility, _____ played a crucial role in society. They were not only a means of _____, but also a form of personal expression and a way to explore complex emotions. Many people of this era believed that writing letters helped them to articulate their _____ more deeply and clearly. Letters became so important that they were often read aloud at gatherings, providing entertainment and sparking _____. This period also saw the rise of the epistolary novel, where the story is told through a _____ of letters. These novels were immensely popular, as they offered a unique insight into the _____' thoughts and relationships. Authors like Samuel Richardson with his novel _____ brought the inner lives of characters to the forefront, making readers feel as if they were privy to private _____. Furthermore, letters were a key way for people to stay connected over long _____, in a time when travel was difficult and time-consuming. The act of writing was considered an _____, with people taking great care in crafting their messages and their presentation. Even in matters of _____, letters were instrumental, used by philosophers and thinkers to spread their ideas across _____. Thus, in the Age of Sensibility, letters were more than just a communication tool; they were a _____ of the era's values, an essential part of its social fabric, and a driving force behind its literary _____.

letters	Europe	characters	conversations	series	innovations	art form
