Roanoke Disappearance

The Roanoke Colony was one of the first attempts by the _____ to establish a settlement in America. It was located on Roanoke Island, in present-day North Carolina. The _____ of this region began in the late 16th century, sponsored by Sir Walter Raleigh. The first group of _____ arrived in 1585, but they faced many difficulties, including conflicts with local Native American tribes and a lack of _____. They returned to England within a year.

In 1587, a second group of settlers, led by John _____, arrived at Roanoke. This group included women and children, hoping to establish a permanent _____. John White returned to England to gather more supplies, but when he came back in 1590, the colony was deserted. The only _____ left behind was the word "Croatoan" carved into a post. This mysterious disappearance has led to many _____ about what happened to the colonists. Some believe they were killed by Native _____, while others think they might have assimilated with local tribes.

Exploration played a crucial role in the early _____ to establish colonies in the New World. The challenges faced by the Roanoke settlers highlighted the _____ of such ventures. They needed to find reliable sources of food and establish good relations with Native American _____. The failure of the Roanoke Colony did not deter further exploration and colonization. Instead, it provided valuable _____ that helped future colonies, such as Jamestown, succeed. The story of _____ remains a fascinating part of American history and a reminder of the risks and uncertainties faced by early _____ and settlers.
