## Social Reform in the Industrial Revolution

The Industrial Revolution in Britain b	rought many change:	s. People mov	red from ruro	ıl areas to
to work in fa	ctories. These factor	ries often had	l poor working	9
conditions. Workers, including	, ho	ad long hours	and low wage	s. Social
reformers saw the need for change. T				
workers.				
One key figure was Robert Owen, who	owned a cotton mill.	He improved o	conditions fo	r his
and provided	education for their o	children. His i	deas inspired	l others to
push for social	. Another important reformer was Lord Shaftesbury.			
He worked to limit the working hours	of	and ch	ildren in fact	tories.
The Factory Acts were introduced to a	address these issues.	These laws so	et	
on working h	ours and required sa	fer working c	onditions. Ov	er time,
more were po	assed to further imp	rove workers'	rights. Publi	c health
also became a	Cities were crowde	ed and unsanit	tary, leading	to disease.
Reformers like Edwin Chadwick pushe	d for better		and clean	water.
Education reform was another crucial				
school attendance compulsory for ch	ildren aged five to te	n. This helped	l reduce	
and improve	d literacy rates. Trad	de unions also	played a role	e in
for workers	rights. They organiz	ed strikes and	d negotiation	s for
better and co	onditions.			
Social reform during the Industrial R	evolution laid the fou	undation for n	nodern labor	
It highlighte	d the importance of	fair treatme	nt and better	living
conditions for all. These	not only	improved wor	rkers' lives b	ut also
contributed to a more equitable socie	ty.
