Tales of Travel in Middle Ages

In the _____, travel was a significant part of life. People traveled for various reasons including _____, trade, and exploration. One famous traveler, _____, journeyed across Asia and documented his experiences. His writings gave a glimpse into the _____ and customs of distant lands. In England, _____ created "The _____", a collection of stories told by pilgrims. These tales reflect the _____ of medieval society and their reasons for traveling. Another important work is "Sir _____ and the Green Knight", which combines elements of _____ and adventure. Travellers often faced _____ such as bandits and harsh weather. Maps and _____ tools were primitive, making journeys unpredictable. Despite these challenges, travel narratives in medieval English prose provide a valuable _____ into the historical and cultural context of that era. They highlight the _____ and resilience of people at the time.
